Online posting report

This is a partial list

Here is a small sample of websites that posted your release shortly after distribution.

This sample covers general news sites only, and just a small portion of those. Your full distribution is broader: it also includes print, TV, radio, influencers, blogs, databases, and search engines, which are not sampled here, and your industry targeting is not reflected in this list. Links may expire after a certain period, depending on each site's retention practices.
